

Chithira Ravi

Python Full Stack Developer

Emakulam, Kerala

+91 9544220203 chithiraravi2002@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

PROFILE

Python Full Stack Developer and **BCA graduate** with hands-on experience building web applications using **Django**. Strong foundation in backend development, database management, and authentication protocols, paired with a proficiency in creating responsive user interfaces using **HTML5, CSS3, JavaScript, and Bootstrap**. Familiar with integrating **REST API** concepts and implementing real-time features like chat and notifications using **WebSocket** in project environments. Committed to writing clean, maintainable code and continuously expanding technical skills through modern development practices.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap
- **Backend Development:** Django, Django ORM, REST API(Basic), Authentication & Authorization
- **Databases:** MySQL, SQLite, MongoDB
- **Developer Tools:** Git, GitHub, VS Code, Figma
- **Cloud & Deployment:** AWS EC2, Linux, Gunicorn
- **Additional Technologies:** WebSocket (Django Channels), Razorpay Payment Gateway Integration

PROJECTS

PLANNEX- Smart Study Planning Platform (In Progress)

- **Technologies:** Python, Django, HTML5, CSS3, JavaScript, Bootstrap, SQLite, Django ORM, Google OAuth, WebSocket (Django Channels), Razorpay Payment Gateway
- Hosted the application on **AWS EC2** with Gunicorn for production deployment.
- Developed a **full-stack online learning platform** connecting students, tutors, parents, and admin to streamline academic management, communication, and course administration.
- Built course enrollment, priority list, slot booking, and timetable scheduling modules to manage tutor selection, session booking, and class scheduling efficiently.
- Implemented secure **role-based authentication and authorization**, including **Google OAuth** login, access control, and protected dashboards for **Admin, Students, Tutors, and Parents**.
- Built **course enrollment, priority list, slot booking, and timetable scheduling** modules to manage tutor selection, session booking, and class scheduling efficiently.
- Developed **Exam Center** and **Resource Management** modules for conducting assessments, publishing results, and sharing study materials, notes, and assignments.
- Integrated **real-time chat** and notification systems using **WebSocket (Django Channels)**

for instant messaging, reminders, announcements, class updates, and payment alerts.

- Added **Razorpay payment integration, performance analytics dashboards with graphs, and parent monitoring** (Only for minor) features to academic progress, and exam performance.

ASESORA LEGAL- Legal Advisory Web Application

- **Technologies Used:** Python, Django, HTML5, CSS3, JavaScript, Bootstrap, MySQL
- **Backend Development:** Built a robust MVC-structured backend utilizing the **Django** framework to process application logic and handle user queries efficiently.
- **Database Integration:** Designed and integrated a **MySQL** database with Django's ORM to ensure secure storage, quick retrieval, and structured management of legal records.
- **User & Admin Workflows:** Created a secure interface for users to submit legal queries and designed a comprehensive administrative panel to moderate, manage, and respond to requests.
- **Responsive Frontend:** Developed a clean, accessible, and user-friendly UI utilizing **Bootstrap** and custom CSS to make complex legal navigation simple for the end-user.

GALERI'D ART- E-Commerce Art Gallery

- **Technologies Used:** PHP, MySQL, HTML5, CSS3, JavaScript, AJAX, jQuery, Bootstrap, XAMPP
- **Team Collaboration:** Co-developed a responsive e-commerce platform, collaborating on **MySQL** database schemas and role-based access control for Admins, Artists, and Customers.
- **Interactive Frontend:** Built dynamic product displays using **Bootstrap**, integrating **AJAX** and **jQuery** for seamless "Add to Cart" and "Wishlist" actions without page reloads.
- **Seller Portal & Database:** Programmed PHP backend logic and database tables to allow registered artists to securely upload and manage listings (images, pricing, and descriptions).

EDUCATION

Python Full Stack Development (Ongoing) 2025-2026
SMECTechnologies, Kaloor, Kochi

Python Core Programming (Intensive Certification) August 2023 – October 2023
Facein Technologies Pvt.Ltd, Palarivattom

Bachelor of Computer Application 2020-2023
St. Mary's College of Commerce and Management Studies, Thuruthiply-Ernakulam

CERTIFICATION

Python Django Internship November 2023 – April 2024
Facein Technologies Pvt.Ltd, Palarivattom

LANGUAGES

- English
- Malayalam
- Hindi
